PROF. GEDEON'S GLASSES.

SPECTACLES, &c., ground on the exact princi-ples of Spherical Accuracy, by A. GEDEON, the celebrated Optician, from the Improved Specta-cle Manufactory and Berlin Optical Establishment, No. 107, Frederick William street, Berlin, established more than a century ago.

Prof. GEDEON submitting to the request of a great many persons of Edgefield and vicinity, will visit that place on the first Monday in December for ONLY TWO DAYS, positively, as other engagements prevent him from staying longer. He may be consulted at his Rooms at the Carolina Hetel, Edgefield C. H., on those two days.

Office hours from S A. M. till 5 P. M.

These celebrated Glasses deserve to be particularly recommended for their density and transparency for, as Spectacles are designed to remedy the defects of as specialists are designed to remedy the detects sight, it is proper that the article of the Lenses are made, should be as transparent in its nature, and the Lenses as perfect in their form, as the eye itself. Prof. Gedeon has accomplished these two great principles by manufacturing his Glasses out of Scotch Pebble, the only substance analogous to the humors of the eye, and has constructed them in accordance with the Philosophy of Nature, in the peculiar form of a Concave Convex Mirror.

These Spectacles enables persons of weak eyesight to pursue the most minute employment, either by day or candle light, never causing that unpleas-ant sensation of giddiness or " Drawing of the Eyes" that is produced by the common Glasses. The Frames are likewise so constructed that the rays of light may be directed through the centre of the Glasses, to unite correctly upon the retina, and form a perfect picture of the object.

Added to the advantages possessed by him of

jong practice in the Eye Infirmaries, and under one of the most eminent Oculists, by which he has obtained a thorough knowledge of the diseases of vision, he has in his possession documents from individuals of rank, conveying the highest testimonials of approbation. HOME TESTIMONIALS.

Ma. Gedeon having presented this Improved Spectacle Glasses to me, for examination, I cheerfully herein place at his disposal my opinion in regard to

so far as I am aware, the use of the Meniscus, is entirely novel for the purpose to which he has applied it; but after a careful examination into the merits of the improvement, and much conversation with him in relation to it, I can express myself as highly pleased with his application of the principle to the improvement of vision. His explanation of its advantages, is in accordance with philosophic principles, and so far as I have examined the subject, meets my approval. The Glasses are certainly constructed with great care, and out of the best material.

H. F. CAMPBELL, M. D., Prof. of Microscopic Anatomy, &c., Med. Coll. of Ga. Augusta Ga., Oct. 31, 1855.

Augusta, Ga., Oct. 30th, 1855. PROF GEDEON-Dear Sir: I have carefully examined your Concavo-Convex Spectacles, and most cheerfully add my testimony of their superiority over any Lenses that I have seen. I am, sir. yours &c., II. A. BIGNON, M. D.

We are using a pair of Prof. Gedeon's Concavo-Convex Glasses, and find them remarkbly easy and pleasant to the sight. We can read fine print with them, and write for hours' without feeling that un-pleasant sensation of "Drawing the Eyes," which the common Glasses have done, We do not know whether it is the superiority of the material, or the principle on is the superiority of the material, or the principle on which they are ground, but we can say, conscientourly, that they are the hest Glasses we ever had.

I have examined the Crystal Spectacles of Mr. A. GEDEON, and find that they are constructed upon cor-rect principles. I therefore have no hesitation in re-commending them.

L. A. DUGUS, M. D. EDGEFIELD, S. C. Nov. 12, 1855.

I have been using for several days and closely ex-amining the glasses of Prof. GEDEON, and find in them considerable comfort and aid to my vision, especially

STARTLING; BUT TRUE WARNING TO EVERY SENSIBLE WOMAN Why Females Suffer in Health. No woman of delicacy is willing to disclose the peculiar allments incident to her sex, even to a most intimate family

nimens incident to her set, even to host host physician.

This modesty and delicacy is implanted by nature, and neither should nor need be subjected to the rude shocks inevitable in making known to the other sex those allments belonging exclusively to the female.

Except in extreme cases, her sensitiveness will sacrifice her health rather than her delicacy.

The consequences are serious, lamentable, and likelong. Thus what at first could have been easily remedied, or perhaps better still, not incurred, becomes a complication of disease, not only ruining the health of the mother, and embittering her days by sickness and suffering, but entailing broken constitutions upon her children, and embarrassing, if not distressing, the business and pecuniary prospects of the husband. Let every sensible woman

TAKE WARNING IN TIME. (as thousands have done) by the bitter experience and sufferings of others, of the dreadful consequences she entails upon herself and those endeared to her, by her ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery.

How many are suffering from obstruction or irregularities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice! How many suffer from protagnus uter! (falling of the womb,) or from fluor albus (weakness, doblity, &c.)! How many are in constant agony for many months preceding confinement! How many have difficult, if not dangerous deliveries, and slow and uncertain recoveries!

have difficult, if not dangerous deliveries, and slow and uncertain recoveries!

To the question, how are these to be prevented? what shall be done? the answer is simple.

Let every woman ascertain for herself, without violence to her delicacy, the nature and character of the aliment (to which she as a female is subject) the causes from which it may arise, and the proper remedies for its cure and future prevention.

This she can do by possessing a little volume (aiready possessed by thousands) which tells her what is the matter, and tells her what to do for it, in simple but chaste words, and such as she can understand.

THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION, BY DR. A. M. MAURICEAU,

PROFESSOR OF DISEASES OF WOMEN. One Hundredth Edition, (500,000) 18 mo., p. 250. [ON FINE PAPER, EXTRA BINDING, \$1,00.] A standard work of established reputation, found classed in the Catalogues of the great Trade Sales in New-York, Philadelphia, and other cities, and sold by the principal booksellers in the United States. It was first published in 1847, since which time Five Hundred Thousand Copies

have been sold, of which there were upwards of ONE HUNDRED THOUSAND SENT BY MAIL, attesting the high estimation in which it is held as a relia BOOK FOR EVERY FEMALE. the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands, both in person

which he is yearly consulted by thousands, both in person and by letter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character, causes of, and the proper remedies for, her complaints.

The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, will find such introduction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm, as all the peculiarities incident to her situation are described. lety or alarm, as all the production are described.

It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intender for the married or those contemplating marriage. The reversal lations contained in its pages have proved a blessing to thou lations contained in its pages have proved a blessing to thou sands, as the innumerable letters received by the author (which he is permitted by the winters to publish) will attest.

Extract of a Letter from a gentleman in Dayton, Ohio.

Dayron, May 1, 1847

"My wife has been perceptibly sinking for some three years or more, in consequence of her great anguish and suffering some months before and during confinement; every successive one more and more debilitated and prostrated her, putting her life in imminent danger, and which was on the hast occasion despared of. I supposed that this state of things was inevitable, and resigned myself to meef the worst. At this time (now about two months) I heard your book highly spoken of, as containing some matters reaching my case. On its receipt and perusal, I cannot express to you the relief it afforded my distressed mind, and the joy its pages imparted to my wife, on learning that the great discovery of M. M. Dosomeaux provided a remedy. If opened a prospect to me which I little conceived was possible. No pecuniary consideration can ever repay the obligations I am under to you, for having been the means of imparting to us the matters contained in "The Married Woman's Private Medical Companion." But for this, ere another year would have passed over my head, in all human probability my wife would have been in her grave and my children left motherless." In consequence of the universal popularity of the work, as evidenced by its extraordinary sale, various impositions have been attempted, as well on booksellers as on the public, by imitations of title page, spurious editions, and surreptitious infringements of copyright, and other devices and deceptions, it has been found necessary therefore cultivation.
